

## **SECTION 26 01 50 - WORK INCLUDED**

### **PART 1 - GENERAL**

#### **1.1 SUMMARY OF ITEMS INCLUDED**

- A. This Electrical work for this project includes, but is not limited to, the following:
1. Secondary Power Distribution system including:
    - a) Overcurrent and relaying protection
    - b) Enclosed circuit breakers, disconnect switches, motor starters and control devices
    - c) Automatic transfer switches
    - d) Feeders
    - e) Secondary distribution metal-enclosed switchboard
    - f) Branch circuits
    - g) Control circuits
    - h) Equipment foundations, housekeeping pads and grounding
    - i) Drip pans above new and existing electrical equipment.
    - j) Standby Generator set
    - k) New electrical service
  2. Lighting systems, including:
    - a) Interior and Exterior lighting
    - b) Drivers
    - c) Hangers
    - d) Lighting branch circuits
  3. Power and control circuits to all HVAC equipment and miscellaneous utilization equipment.
  4. Data and telecommunications systems. Systems include:
    - a) Sleeves where required
    - b) Raceway Systems
    - c) Cabling
    - d) Patch Panels
  5. Branch circuit wiring and devices including:
    - a) Receptacles and switches
    - b) Emergency lighting systems including:
      - (1) Battery packs
      - (2) Emergency ballasts
  6. Fire alarm including:
    - a) Devices
    - b) Conduit & wires

7. Security, PA, Access Control including:

- a) Pathways
- b) Sleeves
- c) Cabling
- d) Final termination

8. Equipment supplied by others:

- a) HVAC equipment
- b) Plumbing equipment
- c) Security Devices
- d) Access Control Devices
- e) Speakers and volume controls

**PART 2 - PRODUCTS**

NOT APPLICABLE

**PART 3 - EXECUTION**

NOT APPLICABLE
